

NEXUS COALITION IS HERE TO HELP EDUCATE AND SERVE OUR COMMUNITY

FREE

NALOXONE

WHAT IS NALOXONE

Naloxone is a safe and effective rescue medication that reverses the effects of opioids and saves lives.

Naloxone works with opioids such as **oxycodone, hydrocodone, fentanyl, methadone, codeine, or heroin.**

WHO IS AT RISK?

Anyone taking opioids can stop breathing and die. People who are at risk of an overdose are those who have previously overdosed, are currently using substances with opioids, including anti-anxiety medications, sleeping aids or alcohol.

GET YOUR NALOXONE

Nexus Coalition distributes Naloxone at no cost and with no prescription necessary. All that is required is a brief training so you know the facts and feel comfortable to use it. Whether you are a family member, caregiver, or friend to an at-risk individual, having Naloxone available can be **a lifesaving strategy.**
